Sprint 5 Retro

Previous sprint Action Plan

Assign partners to everybody to implement better knowledge sharing and help those struggling on our team to improve their pace and level of work. This is in hopes of improving the work tasks completion at the end of our sprint 5 which is 3 weeks and ends on 3/25.

Joshua Reyes

What went well?

How did this project impact you?
Please list out any positive results below.

I think communication within smaller groups working together is good.

Jason

Better communication, craftverify and musicali finally working as one team

Joshua Reyes

I was able to finish my task and help my teammates to setup aws.

parth.thanki01

Getting LLDs and Peer Reviews done

Kihambo

I was able to balance my workload more than in previous sprints, and we got a lot done in the front and back end.

diego

Type anything, @mention anyone

Joshua Reyes

We manage to solve some of the feedback from the professor.

Khuong Nguyen

We success hosted both front end and back end on aws in production environment.

An Nguyen

What problems did we face?

What needs improvement?
Please list out any problems you encountered during this project.

However, communication should be clearer in the entire group. Group members should also feel free to ask questions to others in hte group and to the professor and TAs.

Jason

Not a lot of productivity feel, some members falling a little behind

Joshua Reyes

Not able to work on my task because of busy schedule and other class midterms.

parth.thanki01

Not many comments on the code provided by whoever did front end files.

Kihambo

There was some shaky communication near the end.

diego

Type anything, @mention anyone

Joshua Reyes

Authentication and Authorization need to use middle ware instead of the built-in library.

Khuong Nguyen

-AuthN and AuthZ need validation as middleware
-Team members did not spend enough time together for understanding each members works

An Nguyen

Learnings & action items

What will your team do next?
Please outline next steps for the team to action moving forward

Ask questions in the group chat. Hold people accountable if they close themselves from communication from others.

Jason

Have 1 persons work being cheked every stand-up so that we can implement what prof told us

Joshua Reyes

Help other teammate if they ask questions.

parth.thanki01

Ask Professor Vong about everything before assuming that what you did is right like Authentication and Authorization.

Kihambo

Be more open to asking questions about changes that need to be made.

diego

Type anything, @mention anyone

Joshua Reyes

We need to hold regular meetings after or before stand-ups on Monday, Wednesday, and Friday to get every one understand the codes and the logic behind them with at least 1 hour every meeting. Ask Professor Vong more questions before we start to code for features and core requirements.

Khuong Nguyen

-fix the authn and authz by this Wed 03/27/24
-members need to read others code, and ask questions, spend atleast 2 hours each day.

An Nguyen

Top Action plans

By end of upcoming sprint(4/15) complete 4 code reviews for the last 4 stand-ups of the sprint, ensuring every team members supposed work. We will document each review and save them in the sprint folder for team members and client to view. This is in hopes of improving productivity and quality of wok while promoting transparency between all members.
