

Work Check

| Code | Color |
|--|-------|
| Warning - Documenting problem as an initial warning | |
| Action - team discussion for further action taken to fix the problem | |

| Reviewee | Reviewer | Work in standup | Actual work done |
|----------|----------|--|---|
| Jason | Julie | <ul style="list-style-type: none">• Finished up Service Layer of Usage Analysis Dashboard.• Implement Controller of Usage Analysis Dashboard• Make a basic .js file to press buttons that will create trend charts for data defined by the dashboard.• Implement ways to send/save length of page after a feature/function is finished being used.• Save the length of feature/page use to the backend/database.• Show LLD design of Usage Analysis | Has all backend done and almost done with frontend like he said. Looking good and on track to finishing tomorrow. |

| | | | |
|---------|-------|---|--|
| | | Dashboard to Professor and/or TA <ul style="list-style-type: none"> • Fix up the test cases for Dashboard Analysis for specifically the per month trend charts. • Implement Data Access Layer for Dashboard Analysis of number of items sold in a timeframe • Implement Service Layer for Dashboard Analysis of items sold in a timeframe • Implement the controller of Dashboard Analysis of items sold in a timeframe | |
| Diego | Julie | <ul style="list-style-type: none"> • Added error element on registration/login html/js • Added cypress test for blank registration/login • Set up mailslurp to automate registration/login OTP testing • Need to finish OTP tests | Has good set up of front end tests ready for the 10th minor fixes but well on track. |
| Kihambo | Julie | Collab Feature | Already separated from grade so no need for us to check since it is his deadline, but he seems to be good and well on track to hopefully finish tomorrow and have good code for his project grade. |
| Parth | Julie | <ul style="list-style-type: none"> • (Done) Fixing LLD Design based on professor feedback | Has finished his feature well ahead and has it on aws and has helped and taught team on how to properly set up |

| | | | |
|-------|--|--|--|
| | | <p>for my feature price range sorting.</p> <ul style="list-style-type: none"> • (Done) Have to add pagination to my PriceRangeSorting. • (Done) Revising the PriceRangeSorting to make sure it works with the actual database table craftItem. • (Done) Revising the PriceRangeSorting to make sure it works with the actual database table craftItem. • (Done) Instead of redirecting the user to a new HTML show the feature on the same page for Price Range Sorting. • (Done) Implementing the retrieval of images from the database and showing it in the front end for Price Range Sorting. | <p>frontend html. On track to fix the rest of frontend tomorrow.</p> |
| Julie | | <p>Fixed middleware to keep login and registration outside AuthN and AuthZ</p> <p>Restructured directory to only have 1 solution</p> <p>Working on Dar report for my feature technology</p> <p>Peer review for Diego</p> | <p>Has finished his feature and has the backend updated and ready to merge in git. marking a significant milestone in our project's journey.</p> |

| | | | |
|----|-------|--|---|
| | | <p>Got Main updated to have Bingo Board feature</p> <p>Fixed configuration for artist portfolio service</p> <p>Removing errors from code</p> <p>Got Diego's test cases into codebase in artist portfolio branch</p> <p>Fixed controller to call services to then call dao instead of original dao then services from controller.</p> <p>Fixed config file call ins</p> <p>Removed all static functions from my code</p> <p>Added extension and size check to my file upload</p> <p>Working on getting more outdated backend test running</p> <p>Removed warnings from codebase</p> <p>Finished fixing backend testcases.</p> <p>Fixed coding routing so that im implementing frontend correctly</p> <p>Figured out problem with my feature from the demo</p> | |
| An | Julie | <p>Item creation, item buying, and item listing are done, and item offering back end is done, (WIP)for the front end.</p> <p>Combine Khuong Inventory Stock with my Item Listing.</p> | <p>Looks good almost done with feature and having it ready for aws, a little behind on end to end testing but has helped a lot on fixes to middleware which is cause of delay not due to lack of effort. Has been great help and looks to be good for deadline.</p> |

| | | | |
|--------|-------|--|---|
| Khuong | Julie | <p>Item Modification(WIP: Almost done having some problem with accessing the sandbox will fix it tonight)</p> <p>Item Deletion (Controller, Service, DAO, add button into index.html, add event listener into CraftVerify.js, and uses cite.css{uses the same html, js, and css file with An})</p> <p>Financial Progress Report(FinancialProgressRe portController,FinancialProg ressReportService,Financial ProgressReportDAO,Financ ialProgressReport.html, FinancialProgressReport.js, FinancialProgressReport.cs s)</p> | <p>Same delay as with An over middleware but looking good with feature and on track to have it done tomorrow.</p> |
