Sprint 3 Standup

2/7/2024

Individual Update

Name	Tasks Done	To-do	Blockers
Julie	- Planning implementation - Feature Design - Planning backend code - Fixed and uploaded backlog grooming - Changed from react to react + CSS - Working on backend	- Feature backend coding - Project Frontend - Project test cases	
Diego	- Started research on frontend implementation - in the middle of learning javascript & HTML	- Study CSS - Design frontend authentication - Code frontend authentication - Write tests for frontend authentication	- labs in other classes - Was sick
Jason	- Researching what technology might require a DAR Report - Brainstorm some ideas on what needs a DAR report. - Ask other teams what they have written DAR reports on. - Write the barebone draft of a DAR Report describing what outside technology we will need. - Receive Feedback on Metrics	Submit a new DAR report with more accurate and measurable metrics.	None

	- Revise Metrics for DAR report for approval - Submit new Metrics for approval (revise if needed) - Submit a new DAR report fitting the information the Professor gave.		
Kihambo	- Coding research for feature - Planned how much time I need to allot towards the feature itself	Continuing the coding process	None
Shane	- Front End Research - Designing front end authorization - Fixing Back End Authorization - Front end authorization coding	Testing front end authorization coding	- In the Process of moving - Recovering from an allergic reaction
Parth	Continue working on the Frontend of UM. Almost Done. Working on the API.	Start working on the Backend for User Modification	Busy with the business. Stuck on the Front end work for UM.
An	Continue making ASP.net core 8 REST API for Log in and Register.	Searching for authentication api cause prof dont lets us use the built in one.	Mvvm applying
Khuong	Trying to incorporate the codes from Github to create an API for Account Recovery (WIP: Need to find a way to have data access into the API).	- Creating a HTML file for Account Recovery to reuse or relocate into .cshtml file. - Create API for Account Deletion once done with	Need to look at how the professor wants us to implement MVVM.

		Account Recovery.	

Group Update

Priority	Questions/Comments/Concerns
High Priority	For CraftVerify finish core req by 2/15
Medium priority	Complete design by 1/31
