Sprint 7 Standup

4/24/2024

Individual Update

Name	To-do	Blockers
Julie	- Fix ui for frontend - Update backend tests - Help integrate other peoples feature to work together	
Diego	- Revise and make new bingo board backend tests - Update home page ui - Implement nav bar for musicali features - Buttons that navigate to implemented features - On login, add buttons to switch to musicali or craftverify home pages	Lab due wednesday night
Jason	- Fix up the test cases for Dashboard Analysis before coding the KPI test based on the design created. - Fix implementation of SQL lines when receiving KPI data from database - Implement the design of Dashboard with retrieving the data to the frontend. - Implement ways to send/save length of page after a feature/function is finished being used. - Save the length of feature/page use to the backend/database.	None
Kihambo	Make the collab feature frontend so that it displays all of the usernames that have been sent a collab request when the user clicks on "See Collabs"	I got a fever and the chills, could barely get out of bed
Parth	Implement the code for Price Range Sorting based on LLD.	Other class final project.

	• Revising the PriceRangeSorting to make sure it works with the actual database table craftItem. • Have to add pagination to my PriceRangeSorting.	
An	• Continue fixing ItemCreation LLD • Create docker to make sandbox + use virus scanning tool. • Design LLD for Item Listing and implement the code for it. • Try to design the Offer feature without the Auction feature and implement the code for it. • End-to-end testing	•
Khuong	• Redesign the LLD of Product Editing and Product Deletion based on today's in-class feedback. • Implement the front-end code for the Inventory Stock service. • Implement code for product editing, product deletion, and financial progress reports. • End-to-end testing	•

Group Update:

Priority	Questions/Comments/Concerns
High Priority	Plan a client demo with Vong
