Sprint 8 Standup

5/8/2024

Individual Update

Name	To-do	Blockers
Julie	Help integrate other peoples feature to work together	Waiting for kihambo to finish so i can connect our features
Diego	- Finish OTP testing - Revise and make new bingo board backend tests - Update home page ui - Implement nav bar for musicali features - Buttons that navigate to implemented features - On login, add buttons to switch to musicali or craftverify home pages - Need to reroute the current navbar buttons	Finals stuff
Jason	- Add to .js file for basic Dashboard Analysis to load data as a trend chart - Using that .js file test if the controller is working. - Adjust LLD based on feedback from TA.	None
Kihambo	- Create automated tests for Collab Feature - Finish the function that shows the user the available users in a table when they enter the collab feature - Fix database sql calls so that every time a user sends a request, it doesn't make duplicate versions of the same row and instead updates it. Because that's what makes the frontend display every single time that the user has sent a request to another user	Group project for another class
Parth	Helping Jason with the front end of the Usage Analysis Dashboard. Creating	Other class final project.

	separate html and js for fetching the data from frontend to backend.	
An	- peer review for Khuong - LLD fixing - End-to-end testing	Error with losing login after changing page.
Khuong	- Creating Test Cases for Item Modification, Item Deletion, Inventory Stock, and Financial Progress Report for front end. - Creating Test Cases for Item Modification, Item Deletion, Inventory Stock, and Financial Progress Report for Backend. - Fix my LLD for Item Modification, and Item Deletion. - End-to-end testing
