Work Check

Code	Color
Warning - Documenting problem as initial warning	
Action - team discussion for further action taken to fix problem	

Reviewee	Reviewer	Work in standup	Actual work done
Jason	julie	Went over requirements of the User Analysis Dashboard with Vong. Start Coding the KPI (Key Performance Indicators) backend skeleton to see if problems hav Research how to track KPIs (Key Performance Indicators) Get feedback if the method to construct the Data Access Layer for Artist Calendar is an improvement. Plus some more work on his feature and research	Has done all he has mentioned, really took initiative when Shane who was supposed to work on backend dropped.
Diego	Julie	Finished backend and controller for bingo board	Has all the code as well as design so it is implemented well and working not just done

Kihambo	Julie	Did backend tests for collab feature and some coding for backend had to wait on Shane who ended dropping	A little behind but had to wait on shane, will check in on him later to make sure he finishes what is backed up
Parth	Julie	Authz fixes and price range sorting for CraftVerify design and brd	Has helped fixed middleware and backend like mentioned and has done his designs.
Julie	Khuong Nguyen	● Create the sequence diagram - (2 hours) ● Code the Backend code and DAL - (8 hours) ● Code the CSS, JS, and HTML - (8 hours) ● Implement into codebase - (2 hours) ● Code the controller/API - (8 hours) ● Create the test cases - (8 hours)	● Create the sequence diagram - (2 hours) ● Code the Backend code and DAL - (8 hours) ● Code the CSS, JS, and HTML - (8 hours) ● Implement into codebase - (2 hours) ● Code the controller/API - (8 hours)
An	Julie	(Done) Implement Custom AuthN Middleware. (Done) Fix Item Creation + Item Listing in BRD: Fixing Success Cases, and Failure Cases. (WIP) Drawing LLD for Item Creation (WIP) Try to implement the config file and fix static classes. Design the data tables for Craft Verify Research on SSH and methods to store users' uploaded data/files.	Fixed middleware like he said and has the designs proposed for his feature. Also has been in touch with me over databases since im managing it for the team so IK he has been doing work.

| Khuong | Julie | Begin to research and work on Item Modification.
(Done) Fixing JWT Token for ID and Access Token.
(Done) Fix Seller Dynamic Dashboard: Product Editing in BRD
(Done) Fix Product Deletion and Product Inventory Stock.
(WIP) Fix Financial Progress Report in BRD.
Analyze other teams' git hubs to restructure the project. | Got our jwt working like mentioned. Has done alot of work on brd which vong said to stop but he has designs and database work he has presented to show his progress on the feature. |
