Sprint 8 Standup

5/3/2024

Individual Update

Name	To-do	Blockers
Julie	- Update backend tests - Help integrate other peoples feature to work together	
Diego	- Revise and make new bingo board backend tests - Update home page ui - Implement nav bar for musicali features - Buttons that navigate to implemented features - On login, add buttons to switch to musicali or craftverify home pages - Need to reroute the current navbar buttons	Code doesn't have a frontend check for empty fields on login/register, going to add that
Jason	- Add to .js file for basic Dashboard Analysis to load data as a trend chart - Using that .js file test if the controller is working. - Fix up the test cases for Dashboard Analysis for specifically the per month trend charts. - Implement Data Access Layer for Dashboard Analysis of number of collabs over time - Implement Service Layer for Dashboard Analysis of number of collabs over time - Implement the controller of Dashboard Analysis of number of collabs over time - Implement ways to send/save length of page after a feature/function is finished being used. - Save the length of feature/page use to the backend/database.	Waiting for new table on database to be made to work on page length save
Kihambo	Create automated tests for Collab Feature	none

	● Get the rows to display on the browser after the user clicks on "See Collabs" by changing index.html and CollabFeature.js ● Create backend code for ScaleDisplayController and ScaleDisplayService ● Add images of scales to the data store for when the user choose a certain scale	
Parth	● Helping Jason with the front end of the Usage Analysis Dashboard. Creating separate html and js for fetching the data from frontend to backend.	● Other class final project.
An	● Try to design the Offer feature without the Auction feature and implement the code for it. ● End-to-end testing	●
Khuong	● Implement the front-end code for the Inventory Stock service. ● Implement code for product editing, product deletion, and financial progress reports. ● End-to-end testing	●
